MR I MILOS STAGE STRUCTURE

The MR1 roof was created with small bands or street festivals in mind. Its special arched aluminium roof, which serves as the frame, gives it a dynamic look while allowing water to easily drain from the canopy. No more hassles with water pockets and problems associated with water build-up. It's a temporary roof which provides you with permanent solution.

Features

- 6×4 m (19.69×13.12 ft) Arched Roofs set-up for temporary events
- Heavy-duty M290 Quatro structure with Trio arches
- Fast connection for quick, simple and secure assembly
- Supplied complete with internal wind bracing wires & connection accessories
- Full structural calculation report & build manual available
- PVC roof colour and side walls options

Specifications

- Max. Stage Dimensions 6×4 m
- Max. Height 3,96 m
- Max. SWL 540 kg
- Wind Rating 64 km/h / 100 km/h (in/out of service)

EX HIRE PRICE Complete system £ 9,000.00 +VAT

GENERATOR HIRE JCB G41QS 40Kva Tier IIIA Engine

NOTE: With the advent of the new Government Emissions policy (December 2018), all mobile generators used for events must now comply with a Tier IIIA engine, failure will result in a fine of £1000 for each offence. The Environment Agency are policing this policy.
